

The German Federal State of Bremen

From India to the road of success

With the efficient guidance offered by the BIG-Group, Mr. Krishna Ravindra could start his business in Bremen within just three days. He fell in love with the city during his first visit in 1999 and decided to come back as soon as possible.

Having earlier established a German subsidiary in Bremen for a major Indian stone producer, he decided to set up his own company INDIASTONE Natursteinhandel GmbH. The excellent geographical location and good connections by rail, road and waterways to all European destinations, make Bremen an ideal city. Above all, Mr. Krishna Ravindra simply loves Bremen, its people and speaking German.

Mr. Krishna Ravindra,
INDIASTONE
Natursteinhandel GmbH
